DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 18, 20-22, 25-28, 30, 31, 41, 42, 45, 47, 51, and 52 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 18, 30, 41, and 47 recite the limitations “selecting of the said first and said second combining means (steps) on the basis or error of outputs from said decoding (decision) means (step)”. However, after reviewing the specification (see Figs. 1 and 5, and page 8, lines 2-25), it is the understanding of the examiner that it is **not** the first or second combining means selected in the selection process; rather, it is the output of the decoder (symbol decision device) that is selected on the basis of output errors.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
